## WATER DETECTIVE

Dave, how can we save water during COVID-19? Our water usage have been increased due to frequently hand washing, cleaning and disinfecting our home.

Once you are not wasting water, you are already saving.

TRY TO find out the water waster from the picture below.

# Water Saving Christmas

Cherish Water Family was alerted by the expensive water bills due to the rise in water consumption recently. In order to encourage them to save water actively, Dave has prepared the Christmas gifts for them.

Please help to draw a line to match the suitable gifts with their wishes.

I will not sing while taking a shower. I want to shorten the shower time to 4 minutes.

The washing machine is broken. I would like to have a water saving washing machine as the old one was consuming so much water.

I have heard WSD organised an innovative water efficient showerhead design competition recently. One of the showerheads has the features of easy cleaning and light in weight; it also has Grade 1 WELS label, sounds very awesome!

I want to learn more water saving tips and practice with my friends and family.

## A warm reminder:

1. Though it is comfortable to have hot shower in winter, remember not to exceed 4 minutes.
2. Remember to request replacement of the plate only when needed.
3. Eat more vegetables and less meat, and do not order excessive food. It can save virtual water of wasted food.

## Good place to Greet Water at Christmas

Hey! Where shall we go for this Christmas?

There's a Water Exhibition in H2OPE Centre. Let's evoke the moments of those days of water scarcity and think about how we can prepare for the future challenges of water resources there!

你想美麗的瀑布和湖泊都消失嗎？  
 你想住在淡水裡的動物都滅絕嗎？  
 你想花昂貴的價錢買一瓶淡水嗎？

最近在家中用果皮發酵製成清潔劑，我請媽媽洗碗前先將油污用少量熱水沖洗，再用少量有果皮香味的清潔劑和清水洗淨。這樣做不但可以物盡其用，沒有化學劑，不損害健康，更可節約用水，如果有香港人都這樣做，我們的世界將會更美好。
