DECODE WATER EFFICIENCY LABEL

The Water Supplies Department (WSD) launched the Voluntary Water Efficiency Labelling Scheme (WELS) in 2009. Products participating in WELS incorporate a water efficiency label that indicates their level of water consumption and water efficiency to help consumers choose water-efficient products for water conservation purpose. The water efficiency grade of the each product under WELS is assessed according to its type and flow rate. There are two versions of the water efficiency label:

To be an eco-friendly and smart consumer, we should check the "Water Efficiency Label" and choose water efficient showerheads.

The showerhead is broken. There is a wide range of products in the market. How can I choose the most suitable one?

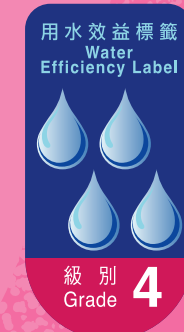

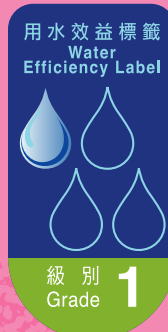

Full Version

Water Efficiency Grade

Water Consumption (litres / minute) of product

Simplified Version (shows only the water efficiency grading)

Grade 1 is the most water-efficient and Grade 4 is the least water-efficient

The most water efficient

The least water efficient

The WELS covers six types of water-consuming devices:

Showerheads

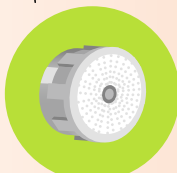

Water Taps

Washing Machines

Urinal Equipment

Flow Controllers

Water Closets

In the event that you wish to purchase water-consuming devices, you should look for this "Water Efficiency Label"!
