

# Game-4 Water Use Habits

 e-game version available

## Objective:

Students can learn to identify between good and bad water-using habits from the pictures displayed on the Image Cards, which show common practices of people. Therefore students can understand the correct attitudes and habits of water use, such that their sense of water conservation can be strengthened.

## \* Reference materials \*

Teacher may make use of the following material:

(1) P3: Topic 6 Practising Green Living - Lesson plan and worksheets

(2) P3: Topic 7 Water Conservation Starts from Home - Lesson plan and worksheets

## How to play:

Before the game begins, students can suggest some daily examples of water use, then Image Cards will be distributed to students. Students have to match the Image Cards by sticking them onto the suitable areas on the poster. Afterwards, the teacher can further explain how to correct the bad water-using habits.
